Forecast for Friday 12 Jul 2024

Weather: Extensively cloudy and damp to start the morning, with some heavier and more showery bursts possible towards Rowen Youth Hostel. Rain edging away through the Friday morning, and although remaining mostly cloudy some brighter intervals should develop. Isolated moderate showers may materialise during the afternoon, becoming fewer and further between into the evening, with lengthier dry periods. Valley mist and fog perhaps forming after dusk on Friday evening.

Chance of cloud-free hill tops above 800m: Near nil improving 60%

Low Cloud and visibility: Blanket low cloud down to 400 metres, very gradually lifting and breaking to become well-broken at around 800 metres by lunchtime.

Meteorologist's View
Nothing to add.

Forecast for Saturday 13 Jul 2024
Weather: Some uncertainty in extent of cloud and any rain, however probably a similar-feeling day to Friday, with cloud and intermittent rain. This will make erratic and gradual inroads southwest, probably easing to give lengthier drier periods during the afternoon.

Maximum wind: Light, perhaps 10mph, mainly northerly.

Chance of cloud-free hill tops above 800m: 30 improving 60%

Low Cloud and visibility: Broken down to 500 metres, very gradually lifting to near the highest ground by the afternoon.

Temperature: **Valleys:** Plus 8 becoming 18 degrees Celsius.
At 800m: Plus 8 degrees Celsius.
Freezing level: Well above the summits.
